Customer Complaint Notification | Ref: CC-2026-00154

1. Complainant Details

Customer / Complainant	ABC Formulations Ltd.
Contact Person	QA Head, Incoming Materials
Complaint Received Via	Email
Date of Complaint	18 July 2026

2. Material Identification

Product Name	Metformin Hydrochloride API
Grade / Specification	IP/BP
Batch / Lot Number	MFH260712A
Date of Manufacture	25 June 2026
Retest Date	24 June 2029
Quantity Supplied	500 kg (20 HDPE drums)
Quantity Affected	25 kg (1 HDPE drum)
Originating Site Block	API Block-3, Hyderabad

3. Description of Complaint

During dispensing of the above batch for granulation, our production team observed black fibrous foreign particles embedded in the API powder in drum number 14 of 20. The particles measured approximately 2-4 mm and were visible against the white crystalline powder. Dispensing was halted immediately and the drum was quarantined under hold label QH-2026-0881. The remaining 19 drums were visually inspected and found satisfactory. Photographs and the retained particle sample are available on request. We request a formal investigation report and replacement of the affected drum.

4. Impact Assessment by Complainant

Product Released to Market	No
Impacted Non-Product Materials	Primary packaging - HDPE drum liner
Batch Status at Complainant	Quarantined, production hold
